

Overload/Reverse Power Relay, RMP-112D

Protect your prime mover against overload & reverse power

The RMP-112D is a protective overload and reverse power relay for generator and prime mover protection.

Protection against overload is crucial in setups where the prime mover is under-dimensioned in proportion to the AC generator.

The versatile unit features a number of adjustable parameters.

RMP-112D features

- ▶ Generator and prime mover protection
- ▶ ANSI code 32
- ▶ 3-phase measurement
- ▶ LED indication of alarm condition
- ▶ Timer-controlled tripping
- ▶ LED indication for activated relay
- ▶ 35 mm DIN rail or base mounting
